

## Hopi Ear Candle

Cost **£75** +VAT  
Duration **1 day**

Ear candling is a native American Indian treatment with a beautiful history of theories about the benefits of candling the ears.

American Indians used this method to clear the mind and remove any bad or negative thoughts particularly before a hunt to ensure the mind was positive and focused. Although our western clients no longer hunt for their food, ear candling is a fantastic way of clearing the sinuses, ear canal of wax and headaches by harmonising the balance of the mind. Just Wonderful!

### You will learn
